Register your organisation

To register, you need to login in the Portal or, if you are a new user, create your account.

Check what information you need to register in the Online Manual - and keep it to hand during the registration procedure. To start registration, click on the button below.

Register your organisation

You can suspend the registration process at any time: the data entered can be saved as draft and you can continue your registration later. To return to your registration, please log in and get into My Organisation(s) in the My Area section. Incomplete, draft registrations are automatically deleted after one year.

For H2020 programme, please make sure to fill in the H2020 and FP7 section in the Participant Register. Additionally, for actions where the SME status is an eligibility criterion (like, e.g. the SME Instrument) you must also carry out the SME self-assessment.

Topic description

ExpectedOutcome:

The need of including sustainable biofuels in a transformed integrated energy system is recognized worldwide. Enhancing the European global role in this area will increase the potential to export European renewable fuel technologies into global developing markets, and improve sustainability of biofuel value chains worldwide while supporting the EU goals for climate change mitigation in 2030 and 2050.

Project results are expected to contribute to some of the following expected outcomes:

- Build global knowledge for the scaling-up and the sustainability assessment of sustainable biofuels value chains.
- Contribute to cost-effective and more sustainable large-scale production of sustainable biofuels.
- Contribute to Mission Innovation Challenge n°4 Sustainable Biofuels^[1].
